

Leading Meaningful Change Pathways

Pathways for Leading Meaningful Change

TRANSFORM HOW YOU LEAD CHANGE

Leading Meaningful Change (LMC) is a practical framework developed through collaborative research and practice. It brings together proven approaches for leading change that capture people's hearts, minds, and souls. By blending real-world case studies, tools, and best practices, LMC helps individuals and organizations achieve meaningful, lasting results. Beverley Patwell has played a key role in developing, teaching, and sharing this work worldwide.

Patwell Consulting's Pathways Program offers flexible options to help you build knowledge and mastery in LMC, whether you are leading change for yourself, your team, or your organization.

YOUR PATHWAY OPTIONS:

LMC FRAMEWORK AND TOOLKIT

Learn the verified LMC methodology and explore tools, research, and wise practices that help you design, lead, and manage meaningful change.

WORKOUTS: LEARNING IN ACTION

- Workouts are practical sessions where you apply LMC concepts directly to your own change challenges, projects, and initiatives.
- Experience learning in action while collaborating with other leaders, managers, and teams, either inside your organization or through open enrollment sessions
- Available online, in person, self-directed, or in blended formats.
- Develop strategies, test solutions, and build confidence as you see yourself and your teams in action.

COURSES

- Participate in structured programs that deepen your understanding of LMC principles and provide practical tools for immediate use.
- Options are available for individuals, teams, and organizations seeking flexible and scalable learning experiences.

COACHING AND MENTORING

- Benefit from personalized coaching and mentoring for individuals, teams, and leaders.
- Develop strategies for leading change, building confidence, and transforming your organization.
- Ideal for growing leadership capacity and preparing your team for success.
